

Class 130, 155 Polyester-Nature-Changed Polyurethane Enamelled Round Copper wire

Type: QZ- $\frac{1}{2}$ /130 QZ(G)- $\frac{1}{2}$ /155 (PEW)

Specification: 0.030 ~ 2.500mm

Properties: Excellent adherence, heat stability, mechanical strength, solvent resistance and electro-appliance ability.

Application: It's suitable for every kind of coiling in electro-motor, electro-appliance instrument and telecom equipment which works meet the temperature 133°C, 155°C.

Standard: GB6109.7 GB6109.2 IEC60317-34 IEC60317-3 JISC3202
