

180 Class, Polyester(imide) Enameled Copper Wire

Type: QZY- $\frac{1}{2}$ /180 (EIW)

Specification: 0.040 ~ 2.500mm

Properties: This product has higher heat-resistance and good mechanical intensity.

Application: It can be widely used for middle or small grade electric motor, communication sets, instruments and other electric facilities windings

Standard: GB6109.5-----IEC60317-8

The product was approved by the U.L. standard.
